NEW RANGE!

The trademark to your smile.

FGM began in 1996 with the development of the first genuinely Brazilian dental whitening gel, the now world-renowned Whiteness Perfect. Today they are present in over 100 countries with over 400 products including composites, adhesives, cements and more!

Full range and more information available on our website

LEDERMIX™

A Long History as the Leading Clinically Proven Solution.

DON'T LET THEIR PAIN BECOME YOUR PAIN.

LEDERMIX™
CEMENT & HARDENER
BACK IN STOCK!

Due to the active substance, triamcinolone, Ledermix Paste counteracts pain symptoms promptly and quickly and leads to a significant improvement. The wide spectrum antibiotic demeclocycline that is contained as further active substance reduces the usually attendant bacterial contamination.

DAMON CLEAR2

100% clear passive self-ligating bracket body and slide for the supreme aesthetics patients demand. Polycrystalline alumina (PCA) material is resistant to staining from coffee, mustard, red wine and other agents. Passive self-ligation technology eliminates the need for elastomerics, which are known to stain and collect bacteria during treatment

Ultima First Molar Bands

Ultima molar bands give you the best of everything: ease of fitting, ease of adaptation and security of retention. Manufacturing process creates a stiff yet adaptable material. Proximal walls are straight for fast seating. Mesio-buccal contour at the gingival aids retention. Available in four larger sizes and offers closer graduation. Proportioned in size and occluso-gingival dimension
